

# LETS GET DOWN AND DIRTY!

**2ND JUNE 2015**

**10-3PM**

**\$10 PP**

Nick Baverstock, Luke Tocaciu and Anna Hooper invite you to venture down underground into the deep depths of the Naracoorte caves to talk dirty for a bit.

A number of leading technicians and practical experts are also joining us as keynote speakers. Highlights will be a probing Q and A session to uncover the truth about soil health, group workshops aimed at sharing ideas about keeping our soil in good shape for our kids, and a number of insightful presentations about the latest research - both in the wine industry and from further afield.

Lunch will include locally grown produce accompanied by single vineyard wines that showcase different soils types across the Limestone Coast.

Book early so you don't miss out on this filthy opportunity.  
More details of the program to follow.
